## PRESENTATION

The **I ECOBAS Macrolab** is a two-day workshop in Macroeconomics designed to foster discussion, collaboration, and the exchange of ideas among researchers working at the frontier of the discipline. The event will bring together scholars from a wide range of Spanish and international universities, creating a dynamic environment for presenting ongoing research and engaging in constructive academic dialogue.

Throughout the workshop, participants will have the opportunity to share their latest findings, receive feedback from peers, and explore new avenues for collaboration. With a focus on both theoretical and empirical contributions, the I ECOBAS Macrolab aims to strengthen academic networks and promote high-quality research in Macroeconomics.

This initiative is co-funded by:

- Proyecto PID2023-147667NB-I00 (MICIU/AEI), Plan Estatal de Investigación Científica, Técnica y de Innovación 2021-2023.
- Grupo GRC GI-2060 (AEMI), Xunta de Galicia (Ref: ED431C2023/05).
